**EDUCATION**

---

**COLUMBIA UNIVERSITY**  
Doctorate of Public Health  
*Sociomedical Sciences*

New York, NY  
September 2008—October 2013

**Dissertation**

Cook, S. H. (2013). *Psychological Distress, Sexual Risk Behavior, and Adult Attachment Insecurity Among Young Adult Black Men Who Have Sex With Men (YBMSM)*. Columbia University.

Sponsor: Patrick Wilson, Ph.D.

**COLUMBIA UNIVERSITY**  
Master of Public Health  
*Sociomedical Sciences,*

New York, NY  
September 2006—May 2008

**THE UNIVERSITY OF MICHIGAN**  
Bachelor of Arts  
*Psychology and Women's Studies*

Ann Arbor, MI  
September 2001—April 2005

**PROFESSIONAL EXPERIENCE**

---

February 2017—present

Assistant Professor  
College of Global Public Health  
Department of Biostatistics  
Department of Social and Behavioral Health  
New York University  
New York, NY

September 2015—January 2017

Postdoctoral Researcher  
The Center for Health, Identity, Behavior,  
and Prevention Studies (CHIBPS)  
Institute of Human Development and Social  
Change (IHDSC)  
New York University  
New York, NY

September 2013—August 2015

Postdoctoral Fellow  
National Center for Institutional Diversity  
Department of Health Behavior and Health  
Education  
Department of Psychology  
The University of Michigan  
Ann Arbor, MI

## **SELECTED CONSULTING EXPERIENCE**

September 2016—September 2017

Statistics Consultant  
Department of Biostatistics  
New York University

December 2013—February 2014

Statistics Consultant  
United States Agency for International  
Development

April 2013—July 2013

Research Methodology Consultant  
Sesame's Workshop,  
Strategic Partnerships & Development  
Department

June 2009—August 2013

Statistics Consultant  
Inst. for Social and Economic Research  
and Policy  
Columbia University

## **PROFESSIONAL ACTIVITIES**

---

### **MEMBERSHIPS**

American Psychology Association  
American Statistical Association  
American Public Health Association  
Society for the Study of Emerging Adulthood  
Interdisciplinary Association for Population Health Science  
International Society of Psychoneuroendocrinology  
Society for the Scientific Study of Sexuality

## HONORS AND AWARDS

---

National Institute of Minority Health Disparities Loan Repayment Award, October 2018

Inter-university Consortium for Political and Social Research (ICPSR) Summer Program in Quantitative Methods of Social Research Scholarship, The University of Michigan, July 2018

Robert Wood Johnson Fellow (RWJF) New Connections Sponsored Scholar, July 2018

HIV and Drug Abuse Prevention Research Ethics Training Institute (RETI) Award, July 2017

Robert Wood Johnson Fellow (RWJF) New Connections Sponsored Scholar, July 2017

Matilda White Riley Distinguished Early Stage Investigator Award, National Institutes of Health (Office of Behavioral and Social Sciences), June 2016

2015 Outstanding Postdoctoral Fellow Award, The University of Michigan, August 2015

American Psychological Association Smoking Dissemination Award, July 2015

NIDA Diversity Scholars Grant Writing Program, February 2015

Poster Award, Excellence in Innovation and Advanced Research in the Field of Sexual Health, American Public Health Association, November 2014

Department of Sociomedical Sciences Dissertation Proposal Nomination Award, Columbia University, July 2011

Excellence in Abstract Submission, American Public Health Association, June 2011

The HIV/AIDS Section Student Scholarship, American Public Health Association, June 2011

Student Travel Award, Mailman School of Public Health, October 2009

Outstanding Student Ambassador Award, Society for the Scientific Study of Sexuality, September 2010

Quantitative Training Award, American Psychological Association, August 2008

Sociomedical Sciences Research Award, Columbia University, September 2006

James B. Angell Scholar, University of Michigan, March 2006

Student Recognition Award and Scholarship, University of Michigan, April 2005

## TEACHING EXPERIENCE

---

### New York University

New York, NY

Principal Investigator and Director, The Attachment and Health Disparities Research Lab,  
College of Global Public Health

- August 2015—present
- My research team and I utilize primary and secondary data to assess the long-term association of attachment related functioning on health disparities among racial/ethnic and sexual minority youth. Further, we work to develop novel methods and statistics to study the association between the integrated processes of attachment transitions and sexual identity development among racial/ethnic and sexual minority youth.

*\*The University of Michigan, Ann Arbor, MI – September 2013-August 2015*

Assistant Professor, College of Global Public Health

- Fall 2019
- Instructor for the graduate course entitled **Longitudinal Analysis of Public Health Data**. Responsible for developing this course. This course covers modern methods for the analysis of repeated measures, correlated outcomes, and longitudinal data, including the unbalanced and incomplete data that are characteristic of public health research. There are four widely available methods for dealing with dependence: robust standard errors, generalized estimating equations, random effects models and fixed effects models.

Assistant Professor, College of Global Public Health

- Spring 2018
- Instructor for the graduate course entitled **Regression II: Categorical Data Analysis**. Responsible for developing the course. This course covers modern methods for the analysis of binary and other discrete response data, including applications to epidemiology and the social sciences. This course covers topics such as logistic regression, conditional models, and multinomial regression. This course will teach you how to evaluate and interpret models for binary, ordinal, and other discrete response data using Stata statistical software.

Assistant Professor, College of Global Public Health

- Spring 2016, Spring 2017, Spring 2018
- Instructor for the graduate course entitled **Regression I: Regression Analysis and Multivariate Modelling**. Responsible for developing the course. This course offers students advanced instruction in statistical modeling for health research. The course focuses on general linear regression models for continuous, categorical, or discrete outcomes commonly seen in health related research studies.

Assistant Professor, College of Global Public Health

- Fall 2017
- Instructor for the graduate course entitled **Biostatistics for Public Health**. This course covers basic probability, descriptive and inferential statistics, and the role of biostatistics in the practice of public health. Specific attention will be given to common probability distributions in public health and medicine, t-tests, Analysis of Variance, multiple linear and logistic regression, categorical data analysis, and survival analysis.

Assistant Professor, College of Global Public Health

- Fall 2015, Summer 2016, and Fall 2016, Spring 2018
- Instructor for course entitled **Global Issues in Social and Behavioral Health**. Graduate students are introduced to political, social, and psychological theories related to health disparities in domestic and international contexts.

### **Rutgers University**

New Brunswick, NJ

Adjunct Professor, Women's and Gender Studies Department

- Spring 2011
- Instructor for course entitled **Women, Culture, and Society**. Responsible for developing the syllabus and evaluating students' class performance. Students were introduced to political, social, and psychological theories related to the construction of women's realities in domestic and international contexts.

Adjunct Professor, Women's and Gender Studies Department

- Spring 2010
- Instructor for course entitled **The Gendered Body**. Responsible for teaching upper-level undergraduate students about the ways in which the body is constructed in society and in different cultures. Responsible for the development of the syllabus and the evaluation of students' performance in class.

### **Columbia University**

New York, NY

Head Seminar Leader, Department of Sociomedical Sciences

- Fall 2010
- Instructor for the weekly 60-minute discussion component of course entitled **Introduction to Sociomedical Sciences**. Instructed MPH students on social science theory that can be applied to public health problems. Responsible for developing lesson plans for the discussion sections and evaluating student performance on assignments.

Statistics Lab Instructor, Department of Sociomedical Sciences

- Spring 2010
- Instructor for lab component of course entitled **Introduction to Survey Research Methods**. Taught MPH students basic applied statistics using SPSS. Responsible for creating lesson plans and evaluating students' understanding of the material.

**GRANTS****IN PROGRESS****NIH Career Development Award**

Submitted November, 2018

Project Title: A Daily Diary Approach to Understanding Stress Physiology and Substance Use.

Role: Principal Investigator

The proposed research study aims to understand the social and biological mechanisms linking adult attachment insecurity and daily substance use among YSMM ages 23-26 years old using an intensive longitudinal design. The goal of this study is to inform the creation of attachment based substance use prevention interventions that will ultimately decrease the high rates of substance use among YSMM.
